Deliver to your Kindle or other device

Click **Get Library Book**.

Enter the login information for the same Amazon account you use to for your Kindle.

- You may need to select the name of your Kindle to send it to your device.

Open your **Kindle** app or turn on your Kindle device.

- If your Kindle is not always connected to the internet, you may need to connect to a WiFi network and select the option to **Sync** or **Check for Items**.

OverDrive now lets you switch between your Kindle and another device! It will even remember where you last were, as long as your Kindle was synced to the internet when you last used it.

Go to bridges.overdrive.com or open the Libby app to get your book on another device. It will be located in the **Loans** tab, or on your **Shelf**.

- Books are automatically deleted in 14 days, unless you renew or return them early. You can return your book on OverDrive, or your Amazon account.

Transfer via USB instead

- If you have an older Kindle or no access to WiFi, you can still get library books.

1. On Amazon's website, go to your **Manage Your Content and Devices** page.
2. Find the title in the **Content** list, then select the icon with 3 dots.
3. Select **Download & transfer via USB** in the pop-up window.
4. Follow Amazon's prompts to finish the transfer.
